

Keeping Austin turning since 1988

# The Chip Pile

The newsletter of the Central Texas Woodturners Association  
Austin, Texas

A Chapter of the American Association of Woodturners

## May Meeting 5/20, 7 PM

At American Youthworks

**Demo: Noah Peters  
Bowl Coring**

**June 7 First Saturday  
Host: Gary Roberts  
Wood Cutting Party**

### President's Note By Kelly Shaw

I think it is August already! Most of us have workshops carved out in our garages and with this Texas heat it can be a challenge to make it out into the shop and get anything turned. I know a few really good turners that have to back away entirely from turning when the temperatures get this high. A few years ago, I remember putting large fans in the doorway that led to the house to try to pull some air conditioning in, and wearing very light clothing, but it can really get miserable fast especially in the late afternoon. If you have a chance, stop by someone's shop

who has invested in a small mini-split and see what kind of difference it makes. It is a total gamechanger and has become very affordable over the past few years. There are plenty of us who have them that can point you in the right direction of what you might need and how to get it installed. It is definitely worth the small investment and is almost a necessity when it's over 100 degrees in May! Other options you might consider are calling up a fellow woodturner and spending a bit of time with them in their shop, or taking advantage of our fantastic partnership with Rockler at the First Thursday Learn and Turn. Just be sure to park in back at Rockler so that we don't negatively affect their digitally recorded sales metrics for the day that is tracked by sensors near the door-- and always make sure to leave the room the way we found it, with the lathes clean and shaving free, as well as the tools organized back the way they started. Rockler in Round Rock has been an incredible sponsor for us with 10% discounts on sales and several contributions to our monthly raffle.

I'm really looking forward to the guest turner Mike Josephs has demoing for us at the next meeting. Mark your calendar for June! We only have one more month to complete our epic collaboration President's Challenge!

### April 2025 Meeting Minutes By Beth Watkins

President Kelly Shaw called to order the April meeting of the Central Texas Woodturners Association (CTWA) at 7:00 p.m. on Tuesday, April 15, 2025, at the American YouthWorks (AYW) facility.

Members approved the minutes of the March 2025 meeting as written.

Kelly recognized visitor Mitch Lee.

Don Doan announced that the next Learn & Turn gathering at Rockler would cover beads and coves and turning a weed pot.

Zack Rubin presented only select items from the Instant Gallery to allow more time for the demonstration.

Mike Josephs introduced Kirk DeHeer, who demonstrated thread chasing.

The meeting concluded with the Bring Back Raffle and the drawing for turnings to be embellished and brought back in June for the President's Challenge.

#### **CTWA Outreach John Chatelain**

We always can use your donated turnings for our outreach programs. These donated turned items are sold at our outreach events to help fund our club. I will have a cardboard box near the front door at every meeting. Please place your donated turned items in the box. I know that all the turnings that our members create cannot all fit in your living rooms, so any extra turnings that your spouse says is taking up too much room would greatly benefit our club. So please bring them to the next meeting.

#### **Upcoming events**

1. Pflugerville Arbor Day event November 8, 2025
2. Pioneer Days event will not be happening this year
3. Pens for Vets... Their May event conflicts with our Alan Lacer meeting, so we have scheduled our next pen turning event for October 5, 2025
4. Texas Woodworking Festival... September 13<sup>th</sup> & 14<sup>th</sup>... We may or may not be at this event. Depending on the

availability of unsold booths to commercial vendors. We may be at this event if there is extra unsold space. We have budgeted \$250 for a booth, but booths cost a lot more than this. Hopefully there will be extra space for us. I will let you know as the time gets closer.

5. American Youth Works pens for Graduates event... We have scheduled the pen turning event for AYW graduates for May 20th at 10:00 a.m. and will turn most of the day and stay there for our meeting that night. Please send me an email if you can help. This is one of the paybacks that we give AYW for their generous use of our free meeting facility.

#### **Program Chair Mike Josephs**

Since our last newsletter, we have had two incredible demonstrations for our club at American Youthworks. The first was on thread chasing and was presented by Kirk DeHeer from Utah. We had strong attendance, both in person and online, and we were treated to a very educational and fun demo. I know some of our members have already attempted thread chasing with success, and I hope to see some boxes with threaded lids at our upcoming bring backs and/or show-and-tells. Kirk had a great time in Austin and, as a tip for our next program chair,

he is willing to return to teach us again in the future.

Our other demonstration occurred on the first Saturday of May, presented by none other than the King of the Skew, Alan Lacer. We spent the entire day with Alan and had the opportunity to purchase his book along with some of his tools. Alan drove from Wisconsin to be with us, and in addition to his club demos on making a lidded box and the use of the skew chisel, he held workshops on the same topics at the Little's shop. The classes were sold out and I received comments such as "This was the best class I've ever taken" and "This has been incredibly helpful" from our members. I'm hopeful that his instruction helped to reduce the intimidation that is often attached to using the skew chisel, and we should be seeing pieces displayed at our meetings that have been made with this versatile and clean-cutting tool.

I myself will be demonstrating at our July first Saturday meeting on making spatulas, and I intend to use only the skew to complete the turning.

There's still more to look forward to in May! Noah Peters is visiting us from Oklahoma and at our third Tuesday meeting, Noah will demonstrate his method of bowl coring. His production is prolific, as evidenced by the hundreds of roughed out bowls he has at SWAT for sale. Noah has been

recognized for his abilities by the AAW, receiving the POP Excellence Award at the Portland, Oregon symposium last year. He also received a grant and studied with Glenn Lucas in Ireland. It's wonderful to see a talented, young turner excel in the craft, and we are fortunate to have the opportunity to learn from him. In addition to his demo, Noah will teach workshops on roughing out wet bowls and finishing dried, warped once-turned bowls, you won't want to miss these!

Noah will also be bringing an assortment of his rough-turned bowls to Austin, so if you're in the market, make sure to have funds with you at the meeting.

At the moment, the only other workshop I have planned for the year will occur in September. We will have a very special guest visiting us from Zagreb, Croatia. I will provide more information on Tomislav Tomasic as the date approaches, for those unfamiliar with him. But trust me, he is an incredible turner with a huge range of skills and I'm very excited for his visit.

In July our demonstration will be given by our own Herb Ingram! I believe that Herb has displayed his pieces at every Tuesday meeting since I joined the club in 2021, so it's about time we all had the pleasure of watching him turn.

More demonstrators will be announced in the near future, as

I hope to keep the second half of the year as interesting and engaging as the first half. Cheers y'all.

#### Learn & Turn Roy Martz

May's Learn and Turn class was so much fun. All four of Rockler's lathes were spinning piloted by a diversity of turners whose experience ranged from years to hours.

Jim Spano acted as lead teacher with Jim Moyle and I providing individual support. We practiced turning beads and coves trying to duplicate each one using a story stick; harder than it looked but fun watching each bead look better than the last.

Don Doan captured the action on video and will post on YouTube. Many thanks also to Jim Spano for his ongoing willingness to share his vast experience.

Next month we will focus on the basics for the early turner, emphasizing safety, tool design and purpose, and the all-important knowledgeable SHOPPING. Please join us as a student or tutor. June 5, 3:00. Rocklers.

Roy Martz.

#### Bring Back By Don Doan

The Bring Back Raffle continues to impress me, the generosity of the Club, the gifts, and donations help CTWA stay strong and focused on our core of giving, teaching, learning, and not the least camaraderie.

Here are the donations through April:

| Month    | Amount   |
|----------|----------|
| January  | \$120.00 |
| February | \$136.00 |
| March    | \$147.00 |
| April    | \$147.00 |
| Sum      | \$550.00 |

#### A/V Help needed for Summer and SWAT David Linkletter

A/V Summer Opportunities

The club's Audio/Video work has been enhanced by having a full crew of volunteers who set up the system and troubleshoot it, resulting in an increasingly smooth presentation of our meetings. Zoom meetings have been the latest addition to our club. Summer's arrival presents opportunities for our members to contribute to our advances.

First, some of the A/V crew will be out of town for the summer. We would benefit from a few members volunteering to help with set up for our monthly Tuesday meetings. If you are available between 5:00 and 6:00 pm on the Tuesday meeting days, we can use you. Only moderate lifting is required, and it's not rocket science. But we

will teach you the few tricks you will need to know.

Also, SWAT is just around the corner. We need an A/V operator and a room host for each demonstration. I will pass around a sign-up sheet on Tuesday. Those interested in being an A/V operator, but with no experience, can intern at the A/V control station during the next few Tuesday meetings. It will include observation and hands on training. Old hands at A/V are already good to go.

#### SWAT News By Drew Shelton

**Reminder: Waco hotels are filling very fast. If you are going to SWAT but have not reserved your hotel please do so ASAP.**

This year's Southwest Area Turners (SWAT) event will be held on August 22-24 in Waco. Registration opened March 3rd, and hotel reservations opened on February 10th. The two symposium hotels are the Hilton and the Marriott Courtyard. They tend to fill up quickly, so get your room ASAP if you want to be within walking distance. There are also other hotels in the area as well.

If you've never been to SWAT, you really should give it a try. Lead demonstrators from all over the country and regional demonstrators from the SWAT area will be doing demonstrations on topics you might not have tried

before. And if any of those topics require tools you don't have, lots of vendors will be ready to sell them to you. You'll find woods you might never have seen before and tools you suddenly realize you can't live without. The Instant Gallery will both amaze and inspire with hundreds of beautiful turnings. There is also a 2-for-1 raffle where you have chances to win donated gallery items, tools, and even lathes.

As CTWA's SWAT rep for this year, I attended the Board of Directors meeting on January 25th. I brought up that the concrete floor in our demonstration room causes reverberation with our audio. SWAT might be able to get us some floor pads to help. We'll see if that actually happens or if it even helps.

Another topic at the meeting was the Texas Woodworking Festival. Festival producer Austin Waldo contacted SWAT president Pam Thompson about merging that event with SWAT at a single venue beginning in 2026, perhaps even with a single event registration. This would have the potential to introduce many new people to woodturning. While I don't have a final count of SWAT attendees for last year, the pre-registered total was 661. Last year's Festival had over 2000 attendees. The SWAT vendors would likely benefit from so many new potential customers, though the rest of us might feel seriously outnumbered. Nothing was decided at the board meeting, but I came away with

the feeling that this merger is unlikely to happen. For one thing, we'd have to find a much larger venue in a larger city. My personal opinion is while I like the idea of bringing in new people, I greatly prefer keeping SWAT as it is.

Drew Shelton

#### CTWA Club Benefits

Rockler, Round Rock gives CTWA members a 10% discount if you wear your CTWA badge.

We receive 10% off on abrasives and finishes at Craft Supply online.

Group orders at Craft Supply of anything over \$1000 gets 13% off.

#### The Wood Depot

Gary Roberts, a CTWA founding member, donates his RV parking spot at his home to serve as a Wood Depot for our club.

**Club members please be considerate of other members and don't take all, or almost all, of one species. Give other members a chance at some wood too.**

Members who have, or find, extra wood can bring it to the wood depot so other members have access to free wood. Tools and material are available to seal the ends and mark its species. It is visible and accessible 24/7. Gary has a hydraulic lift table

and a heavy duty 2-wheel dolly in his garage which are available if Gary is home.

Gary's Address:  
8613 Honeysuckle Trail  
Austin, TX 78759  
(Near 183 & Mopac)  
Cell: 512-345-1521

### CTWA Membership

We welcome NEW MEMBERS to join our band of merry turners anytime. An interest in woodturning is the only requirement. Dues are \$60/year, prorated \$5/month plus \$10 badge fee for new members. \$85/ year for a family membership.

<http://ctwa.org/pay-dues/> Is a link to the CTWA website page where you can join the club, pay your annual dues online, and subscribe to the CTWA.org email group. Members need to subscribe to this email group to keep up with what is going on in the club.

A \$1 fee is charged for membership or renewal done online.

With your membership, whether you are experienced or a novice, we will teach you, or learn from you. You will build long-lasting friendships based on a common kinship of matching wood, metal, machine, and man or woman as the case may be.

CTWA members are also encouraged to join the American Association of Woodturners

(AAW). AAW provides an extensive resource for articles, tips, and videos for all areas related to woodturning. AAW has several types of memberships. Please visit the following link to review membership types and pay for your membership. Link to AAW

membership page

### Hints & Tips

This space is provided for members to share tips and tricks they learn or read about. Please email your tips and tricks to Dan Gillen at [dcgillen@gmail.com](mailto:dcgillen@gmail.com)

## 2025 Calendar

This calendar listing is an attempt to keep you informed on upcoming CTWA events and other events of interest to wood turners.

**May 1 Learn & Turn  
Rockler, Round Rock**

**Sat May 3 American Youth Works  
Alan Lacer Demos, Skew in Morning  
Lidded Box in afternoon**

**Sun May 4 – At Clyde & Pat Little's  
Alan Lacer Workshop – Skew Chisel**

**Mon May 5 – At Clyde & Pat Little's  
Alan Lacer Workshop – Lidded Box**

**Tues May 20 – Monthly Meeting  
American Youth Works 7PM  
Demo: Bowl Coring by Noah Peters**

**June 7 First Saturday  
Host: Gary Roberts Wood cutting  
Party**

**Tues June 17 Monthly meeting  
Demo: Twice turned scalloped edge  
bowl, by Herb Ingram**

## Volunteer your Shop

The first Saturday of every month a member of the club opens their shop to host a club get together

## For First Saturday

1. It doesn't need to be big or fancy.
2. We'll bring the lathes.
3. You make the coffee.
4. Drew Shelton brings Round Rock donuts and asks for donations from all who attend to help offset his costs.
5. Have at least enough room for 1-2 turners (easy in the summer).
6. Contact Jim Brinkman to volunteer

## CTWA Member Profiles

By Phil Sherburne

### Johnny & Marcia Tolly

Johnny is a long time turner and has been a member of CTWA since 1995. He began turning with his brother Jimmy on a small lathe on their farm in Kansas but points out they didn't do a lot of turning back then due to all the chores they had to keep up with!

Marcia is well known for her stunning work either with painting or pyrography. In addition, she is marvelous at pen assembly, which she does at events like *Pen for Vets* or the Senior Pen Day at American Youthworks (where CTWA meetings are held).

Johnny began turning quite a bit when in 1987 he bought a Shopsmith. He started by making toys, some of which you can see in the first photo at the end.

When it comes to CTWA they both love the fellowship and sharing that goes on between members. Johnny is well known in the club for his mechanical skills around the shop. It makes sense as he

spent a career in the Air Force doing airplane maintenance. After being a B-52 mechanic and supervisor working on lathes and such comes quite naturally!

Johnny and Marcia are both very active in SWAT. They are involved in leading a number of areas of Operations. Johnny, along with his son Johnny, leverage their military forklift drivers licenses to run the two forklifts moving massive amounts of material around the convention center in Waco. Marcia is the overall operations manager coordinating the show activities and ensuring everything runs smoothly. Other members of their family are there to help out as well.

Both are eager to remind everyone that help on setup day (Thursday before SWAT) is always appreciated.

These days when it comes to woodturning Johnny is making bowls, spin tops and a variety of other pieces. They both help his brother Jimmy with the booth at the Dripping Springs Farmers Market held every Wednesday afternoon. It's worth stopping by and checking out all their cool pieces if you are out Dripping Springs way on a Wednesday afternoon. Speaking of Dripping Springs, Marcia also volunteers weekly at the Dripping Springs Senior Center Thrift Store.

Johnny turns on either his Oneway 1018, Oneway 1224 or even his Vicmarc VL100.

When it comes to advice to new turners Johnny and Marcia encourage everyone to ask questions and don't be afraid to learn new things. Take advantage of the CTWA resources – mentors, etc.

As a last thought they encourage everyone to volunteer – the association always needs help and it's a great way to meet people.

## Jimmy Tolly

While Jimmy turned a small amount growing up on a farm in Kansas, his real story with woodturning began in 1983 while living in Connecticut. Watching a DIY series on Saturday morning TV piqued his interest. This led to a purchase of a Total Shop - similar to a ShopSmith. Jimmy was turning segmented pieces early on and began teaching classes at the local ShopSmith store.

After moving to Texas in 1994, Jimmy and his wife bought a piece of property near Dripping Springs where he built his shop - even before building their house! In fact, they lived in what became the shop for 6 months while the house was being built!

Jimmy learned about CTWA from a visit to Paxton's Hardware where CTWA was meeting at the time a number of years ago. He joined in about 1994 and has been active in the association since that time. He finds CTWA particularly enjoyable from the people he is able to interact with – sharing stories, wood and new ideas.

Jimmy has been a member of AAW since his time in Connecticut. He has attended a few of the national shows including being a demonstrator when the AAW National Show was in San Antonio.

He really enjoys SWAT and began attending back when it was *Texas Turn or Two* and being held at the Maricopa Ranch near Canyon Lake. These days Jimmy along with Johnny and Marcia Tolly form the operations committee for SWAT. Jimmy is the electrical expert at SWAT and manages the electrical setup. The fact that SWAT runs so smoothly can in large part be attributed to this group.

Anytime volunteers are needed you can be assured that Jimmy will be there. For instance, he and Johnny are repairing a lathe that has been donated to CTWA for loaning to new turners.

Jimmy does most of his turning on a big Oneway 2436. Among the many pieces Jimmy turns these days are Bowls, Rolling Pins, Bottle Stoppers, Gnomes, Snow people and Suet Feeders out of local Juniper (what locals call Cedar). The Suet feeders can be found for sale at the Dripping Springs Wild Birds Unlimited store.

Jimmy has a few pieces of advice for new turners. First, while YouTube videos are fine people should really seek out an experienced turner to help with the basics. Second, if you are going to be in your shop turning make sure someone knows to check on you regularly in case of an accident. Lastly, safety first – always use dust protection and a face shield.

A sample of the many pieces Jimmy has turned.

Below are a few of the funeral urns that Jimmy has turned.
